

Judicial Ticket.

For Associate Justice of the Supreme Court—**WILLIAM F. LYON.**

The legislature has given Racine permission to build waterworks.

If the legislature would enact a good license law it would have a pretty firm grip on public confidence.

The bill to brand the prison-made goods at Waupun, has been killed in the assembly by a vote of 45 to 36.

It has been said, and the statement is not very wide of the mark, that divorce does more harm in America than dynamite in Europe.

Mr. N. L. Dukes should be persuaded to remove to Pepin county in this state. It is a good place for the Williams and Dukes to go to.

The bill to provide for a public guardian in each county in this state, and to establish a state school for feeble-minded children, have been postponed.

The democrats in Ohio feel so frisky and confident that the Cincinnati Enquirer asserts that they could nominate yellow dogs this spring, and elect every one of them.

Senator Lord, who has been very generous in the distribution of public documents, will please accept the thanks of the Gazette for numerous valuable state publications.

When the vote in Little Rhody is counted, the once highly favored young man who is running for governor on the democratic ticket, will feel a mighty ground-swell.

There is a report afloat that 75,000 cigar makers will strike in May. Not very many families will suffer for bread if cigars are not made for a month or two after the first of May.

The bill to tax sleeping car and drawing room car companies, has passed the senate. While everything else is being taxed, there is no use letting sleeping car companies escape.

Tit for tat is the gospel of the Cincinnati Commercial. If the American pig can't go to Germany, neither shall the German wine be allowed to emigrate to this country. That is fair play.

The republicans in Milwaukee, to show that they heartily desire to lift the judiciary out of politics, will support Judge Mallory for re-election to the bench of the municipal court of that city.

The employees of the assembly have presented Mr. I. T. Carr, the alleged chief clerk of that body, a gold watch, said to be worth \$100. Under all the circumstances, the presentation was a burlesque.

The Hon. Jere Black claims that Senator Conger should be taken up by the republicans for president next year, as he is on the order of the men like Lincoln and Garfield. Personally he wants Hancock and thinks he can be elected.

One of the most remarkable families living is that of B. C. Sargent, of Ellsworth, Maine. There are 9 sons and 2 daughters and their ages are 75, 73, 70, 67, 65, 63, 61, 59, 56, 54, 52, making their united ages 695.

The law license bill has been killed for the present session of the legislature, which leaves the question as before, the minimum being \$75. An attempt should be made to increase the license, and thus put the democrats in the assembly on record on that question.

President Arthur has decided to abolish the office of sixteen internal revenue collectors. This is a piece of reform that will not be very pleasant to a large number of democrats, as it will take away much campaign thunder. The president is still achieving success as a reformer.

Governor Ben Butler has got the best of them in the argument that he should stop his law practice while he is governor. When holding an argument the other day on this point he said: "Governor Talbot did not stop his woolen mills when governor; why, then, should I stop my law mill when I am governor?"

Jupiter Robinson, of Pine Bluffs, Arkansas, was noted because of two things. As a fighter he walked before General Andrew Jackson at the battle of New Orleans, and as the possessor of a strong constitution he bore up the weight of 101 years. But death, which jays all, struck Mr. Robinson the final blow last week.

The bill to create the fourteenth judicial circuit in the northern portion of this state, was ordered engrossed and read a third time in the senate. Senator Warner, ex-secretary of state, presented some figures showing the population of each circuit, the number of cases decided in each and the average number decided for each circuit, and from this exhibit, he was inclined to reduce rather than increase the number of circuits.

A timely note from the Inter Ocean: "There is finally established a monopoly in glucose, controlled by Ciesco J. Hamlin and the male members of his family. It has works in Buffalo, Peoria and Leavenworth, and will be known as the American Glucose company, and has a capital stock of \$15,000,000. As there are only two other such institutions—one in this city and one in Davenport, Iowa—it

looks as if the Hamlins would pretty well control the business. Now, if we can get oleomargarine focused in like manner, and a sort of concentration of forces in all other adulterations, we will have comparatively little trouble in bringing the triflers with the human stomach to justice."

There is a divided opinion as to the value of the majority report of the legislative committee on charitable and penal institutions. If the report is half as wretched and false as the Milwaukee papers try to make out, the committee should be impeached. In Governor Bush's message he said that the system of supporting the insane in county jails, poor-houses or even county asylums, should be abandoned, except in cases where counties, under the present law, have already built and equipped asylums. The minority of the committee—Dr. Lord and Mr. Hill—sustained the views of the governor, but the majority condemn the state institutions and speak in strong terms of the county system. If the latter report is false in nearly every particular, as charged by the Sentinel and Evening Wisconsin, the legislature should become acquainted with that fact at once.

"HOME, SWEET HOME." The body of John Howard Payne, the American poet and dramatist and author of "Home, Sweet Home," has arrived in the New York from France. It will lie in state in the city hall for a day or two, and then will be taken to Washington in a special car furnished by the Pennsylvania railway company. The authorities at Oakhill cemetery at that city will receive the remains of Payne, and hold them until the ninth of June next, which will be the ninety-first anniversary of his birth. The funeral ceremonies will then take place, which will be imposing and entirely fitting the memory and fame of the author of "Home, Sweet Home."

Payne was born in New York, on the 9th of June, 1791, and died at Tunis, in Africa, on the 5th of June, 1852. While in early youth he had a remarkable predilection for the stage, and at the age of only 13, he edited the "Theatrical Mirror." When 19 years old he went on the stage, his first appearance being at Park theater, New York, as "Young Norval." He won success from the beginning, and played Hamlet and other leading parts in all the large cities of the east. In 1812-13 he played in London, also in Ireland, and in the provincial theaters. He adapted many dramas from the French, and among them was "Clari, or the Maid of Milan," which was produced as an opera and contained that touching and famous song, "Home, Sweet Home." It is one of the sad things in the life of John Howard Payne that he wrote that portion of the opera of "Clari" in an attic in the Palais Royal in Paris, when he was near starving. This song which has been sung in all lands and preserved Payne's name from oblivion, made the fortunes of all concerned except the author. It brought him but little, although 100,000 copies of the opera were sold in one year.

Financially he did not seem to prosper, and in 1832 he returned home, and after writing for ten years for various periodicals, he was appointed consul to Tunis by President Tyler. He was recalled by President Polk in 1845, but was reappointed in 1851 by President Fillmore. He had not been in Tunis more than a year during his last appointment, before he died. The government erected a marble monument over the grave of Payne in St. George cemetery, at Tunis; but the proposition of that large-hearted philanthropist and public benefactor—W. W. Corcoran, of Washington—to bring the remains of the author of "Home, Sweet Home," to this country at his own expense, met with universal approval, and through the generosity of Mr. Corcoran, they are now in New York.

POLYGAMY AND THE EDMUNDS LAW. We had a talk with the Hon. Alexander Graham the other day in regard to the operations of the Edmunds law in Utah, and according to Mr. Graham's statement the law is virtually a "dead letter." During the past two years Mr. Graham has spent most of his time at his mines not far from Salt Lake City, and coming in frequent contact with the Mormons and closely studying the practical effect of the Edmunds law upon the polygamous portion of the Mormon church, he declares that so far it has failed to work a reform, and that it will never be of any avail in rooting out polygamy in that territory. He claims that no one who has not lived in Utah, who is not thoroughly informed as regards the operations of polygamous marriages, and does not clearly see a practical remedy, cannot frame a bill that will meet the case.

Upon the authority of Mr. Graham, the Mormons are still indulging in polygamous marriages right in the face of the law prohibiting such unions. It is difficult to convict a Mormon of the crime of living with more than one wife, for the plain reason that in drawing a jury of twelve, the Mormons have the right to select six, and the Gentiles six, so that conviction cannot come from that direction. The territorial legislature is Mormon throughout—not a Gentile in it—and very many of the members have polygamous families, and this influence holds them together. With a population of something like 140,000 Mormons, to not more than 25,000 or 30,000 Gentiles, there is not much hope that a reform can be inaugurated in that territory without some law by congress that is powerful and rigid enough to command obedience. The marriage, among the apostles, and

the elders are performed, or are said to be performed, in the Endowment house at Salt Lake City, and there is no record kept of the transaction. The walls of that building within which no Gentile can set his feet, should be leveled to the ground, or the marriages recorded in a manner prescribed by the laws of other territories and the states. When the evils conceived in the Endowment house are stopped, a very important step will have been taken to reduce the crime of polygamy in Utah. It was supposed that the vote of women would do something to reform Utah, but it does not. Mormon women vote for Mormonism, and strange as it may seem to the women in Wisconsin, very many of them are firm believers in polygamy.

IS IT WAR?

Lord Granville Said to Have Menaced the Washington Cabinet.

O'Donovan-Rossa and John Finerty Chiefly Blamed by the Englishmen.

Minister West, at Our National Capital Unwilling to Deny the Rumors.

O'Donovan-Rossa Afraid to Accept Any More Money for "Express Purposes."

WASHINGTON, D. C., March 23.—According to a report current here Minister West has informed the state department that he is instructed by Lord Granville to say that the violent expressions which certain professed American citizens have given utterance to since the dynamite explosion in London may disturb the otherwise amicable relations existing between his majesty's government and the United States. A correspondent repeated his statement to Minister West, and asked if it was true. Mr. West replied that, of course, he could say nothing in his official capacity, and he would not admit that this government had been notified of any such instructions to him. But he said that his majesty's government could do no less than take some cognizance of the sentiments given vent to by O'Donovan-Rossa and his associates, Finerty, and others, through their newspapers and speeches, and that he had expected just some such instructions from Earl Granville. "I am gratified," he added, "at the tone of the majority of the American newspapers, and think none of the reputable papers have exhibited any sympathy with the profane and anarchical, destruction and assassination."

Secretary Frothingham was asked if the statement was true. He had nothing to say upon the subject, he was answered. It is believed that some communication has just passed between the British minister and the British consul, but there at least is reason to doubt that it took anything like the menacing form ascribed to it by rumor. There is a desperate rumor to the effect that the British minister is to be driven from the city, which is not worthy in its efforts to find pretenses for imposing a war establishment upon the country.

NEW YORK, March 23.—Chief Clerk Sevelian A. Brown, of the state department, is at the Fifth Avenue hotel. A reporter was unable to get him to-night. Mr. Brown, the British consul, said he knew nothing of the reported instructions from Lord Granville.

"JUST FOR FUN."

HORRIBLE FANCY OF A LUNATIC AT SAN ANTONIO, TEXAS. SAN ANTONIO, Tex., March 23.—One of the most horrible crimes ever committed in San Antonio occurred at 4 o'clock this morning on Avenue C. Richard Cavley, a young lunatic about 25 years old, escaped from the county poor-house, came to town, secured an ax, and nearly cut his mother's head off while she was asleep in her room. A young lady in the same bed had a narrow escape from a similar fate. Mrs. Cavley is now recovering from the shock, and she cannot live until morning. The crazy murderer escaped from the house and is still at large. He had threatened his mother's life on several occasions. He had been confined to the jail, and was but yesterday removed to the poor-house, where he would be more comfortable. Richard declared to his mother on several occasions that he wanted to kill her just for fun.

No Bond-Calls.

WASHINGTON, D. C., March 22.—Secretary Folger was compelled at last to surrender some of his authority, and really trusted Assistant Secretary French to decide whether or not the condition of the treasury would warrant additional bond-calls during the fiscal year, or the anticipation of the payment of any of the called bonds due May 1. The treasury experts in the warrant department and United States treasurer's office this afternoon handed to Judge French the report of their examination into the assets and liabilities of the treasury for the remainder of the fiscal year. Their report was for the private use of the secretary, and application for the details of it was denied, but it is known that it was not of a nature that would warrant any further bond-calls or the anticipation of any of the bonds due May 1, amounting to perhaps \$7,000,000, will be anticipated. This is in accordance with the general policy of the treasury department to keep the interest of interest whenever the demands of Wall Street or the supposed business interest requires it. In round numbers the prospective income and receipts of the government for the remainder of the fiscal year will about balance. There are larger demands upon the treasury than had been anticipated, while the receipts are likely to be less. There is already a notable reduction in internal revenue, and there will not probably be any improvement until after the full effect of the new law shall be manifest. The circuit of the department of the treasury, and application for the details of it was denied, but it is known that it was not of a nature that would warrant any further bond-calls or the anticipation of any of the bonds due May 1, amounting to perhaps \$7,000,000, will be anticipated. NEWS FROM NEW YORK.

Conkling, the Slayer of Horavick, Held to Answer.

Arrival of the Remains of John Howard Payne.

Odds and Ends of News and Gossip.

New York, March 23.—Conkling, the murderer of Horavick, said to a reporter: "I have received many letters and telegrams of sympathy from California and Nevada. Some people in this city who I do not know have also written to me justifying what I did. I wish you would do my sister the justice to remove a misapprehension in the public mind as to her conduct. This was her first false step, and while she realized it she never forgot what the manner and breeding of a lady were. She was reared in one of the grandest homes in San Francisco, and none but her own kind could know how much there was to prompt the course she took. I suppose she will accompany me to the west if I am released. I have not heard from her husband since my arrest, although I sent word to him, regretting so much the loss of my sister, and begging him to write to me. My sister was a devoted wife and mother. She had a husband who loved her, and she loved him. I wish you would do my sister the justice to remove a misapprehension in the public mind as to her conduct. This was her first false step, and while she realized it she never forgot what the manner and breeding of a lady were. She was reared in one of the grandest homes in San Francisco, and none but her own kind could know how much there was to prompt the course she took. I suppose she will accompany me to the west if I am released. I have not heard from her husband since my arrest, although I sent word to him, regretting so much the loss of my sister, and begging him to write to me. My sister was a devoted wife and mother. She had a husband who loved her, and she loved him."

Conkling's testimony was substantially the same as the story he had already told. The jury's verdict was that the shooting was done under great provocation, and Conkling was recommended to prison.

John Howard Payne.

When the steamer Burgundia, bearing to his home in his native land the author of the greatest of songs, "Home, Sweet Home," arrived at Brooklyn, the adroit committee and Charles M. Matthews and Lieut. Richard F. Nicholson, U. S. N., representatives of W. W. Corcoran, of Washington, forced their way among five hundred Italian emigrants with which the ship was crowded, and proceeded to the deck, where they placed on the shoulders of four stout Italian sailors and borne down the gang plank and across the pier, through the unnumbered crowd of the harbor, to the shore. There they were met by a large number of the simplest kind. Covered with the American flag and the stars and stripes, the committee, and the members of the press, the poet's remains were brought to this city, and placed in the governor's room of the city hall. Here for three days the body lay in state, and in the evening, escorted by the army and the police, it was taken to the city hall, where it was placed in a special car for the purpose of carrying it to the city hall.

Gen. Butler's "Me Too."

The Herald says: The Rhode Island Democrats nominated Mr. William Sprague yesterday for governor. The political campaign in that little state this spring is modeled precisely on the Massachusetts campaign. Mr. Sprague is the "Me Too" of Gen. Butler. The chances are against Mr. Sprague's success. But his canvas will give the Rhode Island Republicans a "Me Too" that they need.

Gen. Slocum.

Gen. Henry Slocum, having been beaten for governor on two occasions successively that would have made him, if nominated, the presidential candidate—first by New England, and second by the Brooklyn bridge—is now in a minority of two against sixteen other bridge trustees, whom Slocum suspects of a scheme to divert the bridge into some other use, and to build a new bridge over the river in fact, to use it as the convenience of certain bond jobbers.

The Marine Railway Gene.

Nothing is left of the Marine railway to Manhattan beach. It is as completely gone as if Higgins had got at it in one of his most abandoned moments. The line of spurs which protected the roadbed still stands, though every way broken up. The bridge is now in a minority of two against sixteen other bridge trustees, whom Slocum suspects of a scheme to divert the bridge into some other use, and to build a new bridge over the river in fact, to use it as the convenience of certain bond jobbers.

William Henry Smith Banqueted.

William Henry Smith, general agent of the Associated Press, was formally given to the Union club and partook of a banquet by representatives of the beach, bar, banks, insurance, railroad, and other varied mercantile pursuits. Speeches were made by Whitelaw Reid, editor of The Tribune; Hyde of the Equitable Insurance company; Judge Montrose, chief justice of the supreme court; Chace of the Union Trust company; Gen. Porter, H. W. Alexander, Eugene W. Ryan, and others. The occasion was a pleasant one.

Business Good.

Hales says: The solid men of New York are of the opinion that the country is not likely to be speedily ruined. "There will be a reduction of revenue," the railroad business is good. "The marvelous resources of the country were never so well known to the world as now. Gold is coming from Europe in spite of the great effort to keep it from doing so. Even the forced economy of silver, pursued in beyond all reason, does not stop it. There is every evidence of prosperity about New York. The country has made great changes; increasing the value of property that were reported to have been destroyed, and they are extending the city northward with surprising rapidity."

Not in the Score.

The "Flying Dutchman" was again here last night and there was almost an accident at the very end of the pier. The "Flying Dutchman" descended to a platform and steps upon the dock of his platoon ship, which swings away into the stream. "Society" follows him to the platform, striving to join him. It happened that the ship, as it swung away, was pulled away by the support from under the platform, and it began to topple over under the weight of the crowd. The crowd, seeing the danger, rushed to the platform, and the ship, which was a little way from the dock, was pulled up by the support. FIFTH WARD.

The republicans of the fifth ward will meet in caucus at the office of Q. O. Sutherland, on Thursday, March 22nd, 1883, at 7:30 o'clock, to elect four delegates to the city convention, to be held on Saturday, at the common council rooms, and to nominate ward officers.

By order of the ward committee.

Dated, Janesville, March 22, 1883.

Briefs.

Arrivals, March 22d, 3:10 p. m.—Harper house—Fred Beedle, Beloit—two tramps.

J. H. Gateley will furnish his at the same price as last year. See notice in first column.

Mrs. John G. Fox has been quite sick, at her home on North Fourth street, second ward, for several days past.

Mr. Will J. Banks, agent for How-ill's Hibernian, is in the city. Mr. Banks is a brother of Mrs. A. C. Bates.

The Guards' character party will take place next Tuesday evening, and on that night the skating rink will be closed.

Everything in Smith & Sons clothing house is being sold at astonishingly low prices. Call and make your purchase before it is too late.

Yesterday afternoon, in the municipal court, a drunk was fined five dollars and costs, and in default of payment, he was committed to the county jail for ten days.

The Odd Fellows social at their hall, last evening was well attended, and as a matter of course, all enjoyed themselves to the fullest extent. Tuckwood's band furnished the music.

Mr. Will Veley and Mr. John J. Sullivan returned home from Beloit this afternoon. They attended the Jolly Pathfinders last night in Beloit, and report a good performance.

Rev. G. W. Wells, formerly of this city, who has been sick at his home in Oshkosh for several months past, has recovered, and will resume his ministerial labors in that city on Sunday.

Mr. Wm. Anderson, of Johnston, has just sold a fine young horse for a good round sum, and has some more left yet. He has a colt, two years old, which weighs 1500 pounds.

The Jolly Pathfinders are registered at the Myers house. They will give a jolly performance this evening at the opera house. There will be plenty of fun for everybody who buys a ticket.

The managers of the roller skating rink have made a generous proposition to give an entertainment for the benefit of the library association, and have suggested next Wednesday evening, provided that meets the approval of the officers of the library association.

Mr. S. P. Wilcox, one of our leading carpenters and builders, will go to Fond du Lac in a few days, in the employ of Messrs. Nowlan & Bently, contractors for building the Fond du Lac court house.

Mr. Wilcox is to be the overseer of the building, a position he is as well qualified to fill as any man in the state.

The building occupied by Messrs. Parmley & Nesslerode, in which the fire occurred last night, was one of the first buildings erected on the west side of the river, and was built of brick, by Mr. Frank Kimball, and first occupied as the great New York clothing store. Since which time it has been remodeled, enlarged, etc., and is now owned by Mr. Randall Williams.

Mr. I. C. Brownell arrived home last night from a three week's visit to his old home in New York state, Morris, Otsego county, and he is glad to again be in Janesville. Mr. Brownell was accompanied home by his father and mother, Mr. and Mrs. Hiram Brownell, and a nephew, Mr. Herbert Brownell, who will hereafter reside in Janesville. He relates some pretty tough stories to the members of the time kill club, concerning some of the "staying qualities" of "down easters," among which is the following: personal of a resident of the neighborhood he visited—"Samuel Cook, of the town of Morris, Otsego county, New York, has 15 children; 44 grand children; 25 great grand children; and one great great grand child; he never rode in a carriage, stage, or any other vehicle, for 20 years; he has lived in two towns in the same county for 90 years. On his last birthday he split a cord of wood and walked two miles. Hearing reports of a staunch republican, and always has been since the party was organized." Next.

A Little Blaze at the Cotton Factory.

A Two-Thousand Dollar Fire in Edgerton, this Morning.

Further Details of the Johnstown Fire.

Last night at 10:20 o'clock the fire bells sounded an alarm of fire, which summoned the fire department to the store of Messrs. Parmley & Nesslerode, No. 23, West Milwaukee street.

The department quickly responded to the call. The fire was first discovered by Mr. C. N. Vankirk, who gave the alarm. Marshal Hogan and Officers Smith and Brown were on hand in an instant, and rendered valuable aid, by keeping the crowd back and protecting the goods until the arrival of the sack company.

The fire was in the cellar at the rear end of the building; the store-room was full of smoke, which prevented the firemen from working to good advantage, as no man could remain in the building longer than a minute. Assistant Engineer James Foster, who had charge of the fire department, displayed good judgment in giving his orders, by directing the pipemen to keep the streams on the floor until the cellar could be reached.

After several attempts to reach the cellar had failed, he ordered holes cut in the floor, and the fire was then easily extinguished without any damage to the stock of goods in the store room by water, something very unusual at fires in this city, and from which the members of the fire department may all learn a lesson.

The damage to the building cannot exceed twenty-five dollars, upon which there is an insurance of \$500 with Messrs. Dimock & Hayner. The loss on stock cannot now be estimated, but all the damage done was by the smoke, and the drenching of a few potatoes in the cellar. There is an insurance on the stock of \$1200, with Messrs. Dimock & Hayner, in the Buffalo-German insurance company, and we hear that Mr. Strass also has a small risk.

The fire was undoubtedly the work of an incendiary; there were no indications of carelessness on the part of the employees in the store. The story that the faucets of the oil barrels were left partly open, is not warranted by a close inspection by daylight, and the fire was a considerable distance from the oil barrels alluded to.

Mr. Parmley is now absent from the city, in Dakota, and Mr. Nesslerode was at home during the time of the fire, but was called to the scene soon after, and took charge, with Mr. A. L. Nott, relieving the sack company from further duty.

Great credit is due to Assistant Engineer Foster and the members of the fire department, for the good work performed last evening.

FIRE AT THE COTTON FACTORY.

Shortly after twelve o'clock last night there was a little fire started in the dressing room of the Janesville cotton factory, caused, as is supposed, by a spark from a pendulum of the electric light wires.

An employee who has charge of one of the mules in the north end of the upper floor of the factory, noticed a bright flash in the dressing room, the door connecting the two departments being open, and supposed it was lightning, and that there was a thunder-storm approaching. In a few moments his attention was directed to the dressing room by a bright reflection, and he hastened to discover the cause. Upon reaching the room he found a small bunch of yarn on fire. It is supposed that the fire was caused by a spark from one of the carbons attached to the electric light wire over the dressing machine, which was unprotected by a glass globe. On the dressing machine is a large copper roller or cylinder, which was about three feet from the unprotected carbon; the electric light machine was being run at a high rate of speed, the wires being heavily charged. The theory is announced that the attraction of the copper cylinder of the dressing machine caused the electric spark to leave the carbon, communicating with the copper and thence to the yarn. On the other hand it is claimed by the electricians of the electric light company, that the fire must have been caused by other means, as it is impossible for a spark to leave the wires in the manner stated. The damage by the fire was nominal.

FIRE AT EDGERTON.

The two-story frame dwelling house belonging to Mr. William Blizis, and occupied by him, in the suburbs of the city of Edgerton, was totally destroyed by fire between two and three o'clock this morning, together with all the household goods. Mr. Blizis' family escaped in their night clothing. The origin of the fire is unknown. Loss estimated at \$2,000. Insurance not known.

THE FIRE IN JOHNSTOWN.

Yesterday morning about half-past eight smoke was seen issuing from the house occupied by James Shields, about one-half mile east of Johnston, and in a short time the house and most of its contents were in ruins. The fire originated in the chamber where the pipe passes through the floor. It is supposed the house was insured. Mr. Robert Moore having charge of it. There was but a light incense on the household goods, and the better part of them was destroyed. The loss falls heavily on Mr. Shields. The neighbors gathered by the fire, made up a purse of about \$90 and presented it to Mr. Shields. The house was insured in the town insurance company.

KNIGHTS TEMPLAR.

The Order for the Observance of Easter Sunday.

The following order for the observance of Easter Sunday, by Janesville Commandery No. 2, Knights Templar, has been issued. It is understood that the services will be held in Christ church, at 3 p. m., on Sunday.

JANESVILLE, MARCH 19th, A. D. 1883.

Order No. 1.

1st. In pursuance of general order No. 1, of the Grand Commandery of Wisconsin, and in conformity with the salutary and well established usage of the order, divine service will be attended by our commandery No. 2, in this city, on Easter, March 25th inst.

2d. The officers and members of this commandery will report at the asylum in Masonic hall at half past two o'clock p. m., on that day, in uniform, as directed by the printed service, to-wit: full uniform, except without swords or gauds, but with white gloves.

3d. The order to "fall in," will be given at 3 o'clock, sharp.

4th. It is expected that the hallowed association of the day and the significance of the event commemorated by the services to be held, will be sufficient incentive for a full attendance of the members of this commandery, for certainly no true knight will allow anything but natural infirmities, unavoidable accidents, or matters beyond his control, to deprive him of the privilege of participating in the most interesting christian festival.

5th. The families of members will be welcomed and furnished seats during the service.

6th. It is expected Rev. C. M. Pullen, Rector of Christ church, will conduct the service.

7th. Knights having copies of the service will bring them to the asylum.

8th. Mrs. W. W. Wills, Fanner Kimball and W. D. McKee are desired to make all necessary preparations for the exercises of the day.

A. W. BALDWIN, Em. Commander.

C. E. CHURCH, Recorder.

ORITARY.

MRS. SOPHIA HOLMES.

Last evening, at 6:30 o'clock, after a lingering illness of over three months, death came to the relief of Mrs. Sophia Holmes, aged 73 years. The deceased was long a resident of this city, and was widely known and highly respected by all. She was born in Gledneyde, Lincolnshire, England, and came to America in 1853, residing for some time in Buffalo, New York, where her first husband, Richard C. Hanson, died of cholera during the great epidemic of that disease in 1854, leaving besides his widow, seven children, two girls and five boys: Mr. Richard C. Hanson, now of Fort Wayne, Indiana; William Hanson, of Wellington, Ohio; Edward Hanson, Mrs. John Sauer, of Chicago; Henry and Joseph Hanson, of Dunkirk, Dane county; all except William being now in this city to attend the funeral of the deceased. Mrs. Hanson came to this city in 1856, where she married the late James Holmes, who died some eleven years ago.

The funeral will take place at the Congregational church, on Sunday at 2:30 o'clock p. m., Rev. Mr. Davies officiating.

An unknown man was found on the banks of Bass creek, near the village of Atton, at an early hour this morning, with scarcely a breath of life in him, and soon after being discovered, died. He was a young man, apparently about thirty years of age, clean, but not very well dressed, and undoubtedly belonged to a party of emigrants that passed west through Atton at midnight. It is supposed the unfortunate man fell from the train, into the creek, as his clothes were wet and indicated that he had been in the water. Officer Drake went to Atton this forenoon for the purpose of summoning a coroner's jury and holding an inquest, the verdict of which we have not learned.

Kicked Out.

How many people there are who are struggling to rise in the world that are kicked down and out by envious rivals, who are not "kicked out" but "kicked out" by their own actions. It is true blue. For throat affections, asthma, catarrh it is a certain and rapid cure.

The Delinquent Tax List.

County Treasurer Miles settled the tax account with the city treasurer of Beloit to-day, which concluded the entire returns for the year 1882. By a glance at the books of the county treasurer we find that the several towns and cities in Rock county have made returns of delinquent taxes on real and personal property as follows, the town of Porter being the only town which has no returns to make. The table shows that all have been very prompt in paying the tax, as the return of delinquents is very light:

The Coming Attraction.

Miss Jeffrey-Lewis, who appears at Myers' opera house on Monday evening of next week, comes to Janesville with the stamp of success from New York, Chicago, Cincinnati, New Orleans, St. Louis and other large cities; and the reputation achieved by "La Belle Russe," the play in which she performs the title role, is of the highest. It is the story of a woman "whom circumstances have degraded; striving by every means in her power to elevate herself into a position to which she has no claim, and from which her past career very properly debar her. In her attempts to gain the end she seeks, she stops at nothing which she thinks may aid her, and even does not shrink from the shadow of murder. The interest of the play begins with the rise of the curtain on the first act, and as the play gradually unfolds, the audience becomes more and more entranced until the final climax of the last act is reached, when the marvelous acting of Miss Lewis leaves her listeners in tears of sympathy for the creature all have been on the point of hating but the moment before.

"La Belle Russe" appeals to every hearer. It is emotional almost to sensational, while its construction is such as to render it of absorbing interest to all.

The Keystone of Health.

How can you expect to feel well, or even enjoy life, when you go about with a hacking cough? The fool, in his wisdom, says there is no cure for it, but his wife man hies him to Stearns & Baker's drugstore, and gets a bottle of Dr. Bigelow's Positive Cure, and at once gets well. Amber Cane Sugar.

Prof. W. A. Henry, of the state university, intends to present to each member of the legislature a package of sugar manufactured from amber cane grown on the experimental farm in 1882. Accompanying the same will be the data of the largest plot of cane made into sugar. The figures thus presented are certainly indicative of the large possibilities open to Wisconsin farmers in the raising of amber cane. The data are interesting: Area of plot, 3.3 acres; weight of stripped cane, 75,262 pounds; per cent of cane sugar in piece, 93%; amount of sugar separated, first crystallization, 21,16%; second crystallization, 73%; total amount of sugar, 2,846%; syrup drained from the sugar, 315 gallons; seed obtained 76 bushels, weighing 51 pounds. The cost of manufacturing the refined sugar was for all expenses, including the cost of the cane, but excluding the pay of the chemist in charge, 4% cents per pound. The value of the cane seed is not taken into account in the above statement. Since the means of refining the sugar were very imperfect, the samples sent out very greatly in color. Some are nearly equal to "coffee C" in color and appearance, while most are brown in color, being but little superior to the unrefined as first manufactured.—Madison Journal.
